

Hugh Kelly

UX & Product Designer, *RSE Research Project with Edinburgh Napier University*

May 2026 – Present

- Designed interaction concepts and prototypes for a companion robot aimed at supporting young children
- Conducted user research, journey mapping and iterative usability testing to inform design decisions
- Created wireframes and interactive prototypes in Figma and FigJam
- Collaborated with electrical engineers on sensor-based interactions and physical prototype integration
- Contributed to evaluation planning for the robot's overall user experience

Digital Learning Designer, *MAPAL – OS*

February 2023 – December 2025

- Designed user-centred digital learning experiences for 100+ enterprise organisations across hospitality and retail
- Applied UX principles including journey mapping, prototyping and iterative design to improve usability and engagement
- Created learning experiences and interface designs using Figma, Articulate and Evolve
- Collaborated with clients including BrewDog, Levy UK & Ireland and KellyDeli on onboarding and training initiatives
- Balanced user needs, accessibility and business goals to deliver intuitive digital experiences

Business Development Executive, *MAPAL – OS*

February 2022 – February 2023

- Developed knowledge of Learning Management Systems and enterprise digital learning platforms
- Worked with hospitality clients ranging from independent restaurants to multinational organisations
- Identified customer needs around compliance, onboarding and staff engagement
- Used Dynamics CRM to track client interactions and support data-informed decision making
- Gained insight into user behaviours and operational workflows across real-world digital systems

Profile

Early-career UX & Product Designer with experience in user research, interaction design, digital learning products and enterprise UX. Currently completing an MSc in UX Design at Edinburgh Napier University, with professional experience designing user-centred experiences across hospitality, eLearning and robotics research projects.
